

Product Description:

The IPB30W DC 12-80V work lights are designed to meet customer demands in all applications. This specific Blue spot version projects warning signal on the floor to helps alert pedestrians. Light runs anytime forklift is turned on - no one has to remember to activate it.

Specification:

Name	Safety LED Light
LED Source	CREE LED
High Power	30W (CREE LEDs)
Operate Voltage	10-80V DC
Luminous Flux	2400 LM
Style	Waterproof, Dustproof, Shockproof
Body	Aluminum housing with PC Lens
Usage	Forklift
Working Temperature	-45 ~85°C
Service Life	≥30000Hours
Color Temp	6000K
Waterproof	IP67
Material	Plastic housing, PC lens, stainless steel bracket
Color	Blue or red for option
Beam	Square Spot beam

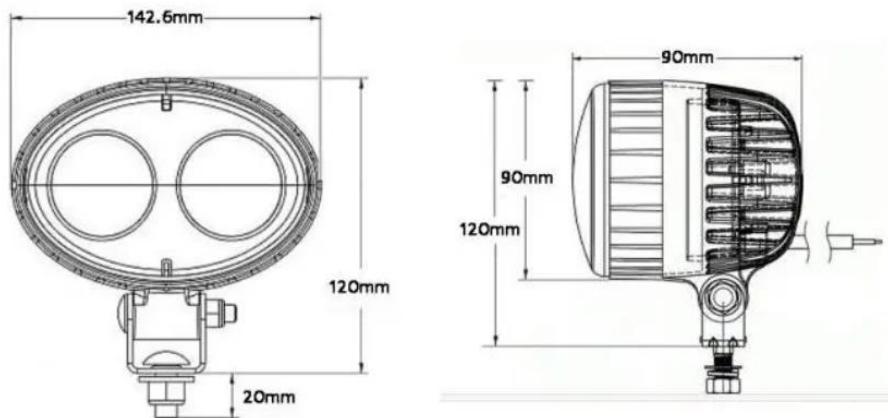

Product Advantages

- Wide operating voltage range: It can apply to different types of trucks, cars, and other vehicles
- High intensity CREE LED chips;
- Lamp body is faster radiating than aluminum, high temperature resistance, beautiful exterior;
- Lamp cover adopted imported PMMA technology, good vitreousness, anti high/low temperature burs;
- Lamp reflector used optical reflectivity projector lens, long reflect distance;
- Fix device from Japanese airlines tighten technology, stainless steel, shakeproof, rustproof, water proof;
- Energy saving, high brightness, long lifespan, adopted Japanese encapsulation technology;
- Universal for 12V-80V power sources;
- Life Span: More than ordinary LED bulbs, more than 30000 hours;
- Excellent water-proof and shock-resistant aluminum housing;
- Dazzle soft light;
- Work in rain and difficult operation conditions;
- Easy to wire up, install and adjust.

When the LED Safety Warning Spotlight assembly is mounted to a forklift or other moving vehicle, it projects bright blue spot beam pattern on the floor surface. Since multiple lights can be mounted onto a single forklift truck, the warning light spots can be seen behind or in front of the forklift.

The bright light spot on the floor is clearly visible to pedestrians, machines and vehicles in the area, regardless of the ambient noise, alerting them to the nearby presence of the forklift. Traditional audio back up alarms can blend into ambient noise in the building and pedestrians can become immune to the audio warning.

Size of LED forklift light:

Product Application:

1. Engineering vehicles: Excavator, dozer, road roller, bulldozer, crane, mining truck, etc.
2. Specialty vehicles: Fire truck, police car, rescue vehicle, communication vehicle, military command vehicle, etc.
3. Offroad vehicles: SUV, ATV, truck, Fork lift, train, boat, bus, tanks, etc.
4. Agricultural machines.
5. Construction sites.
6. Heavy duty machines.
7. Outdoor activities
